## ABOUT ME

I am looking forward to integrating technical expertise and creative flair to work on innovative projects. With a foundational background in both computer science and graphic design, my perspective is unique in its ability to blend analytical problem-solving with artistic flair. I am passionate about working collaboratively with the forward-thinking teams that strive for excellence in creating high-quality software solutions and visually compelling designs. With eager anticipation, I look forward to tackling challenges and making a difference in the tech world.

## WORK EXPERIENCE

### Frontend Developer
May 2022- Nov 2023
**BigBirdWeb**     info@bigbirdweb.com

I worked as a Front-End Engineer at Bigbirdweb for 1.5 years, designing and maintaining responsive web interfaces while collaborating with cross-functional teams to enhance user experiences. My role focused on optimizing website performance and ensuring seamless functionality across browsers and devices.

**bigbirdweb.com**

### Graphic Designer
Aug 2021 - Mar 2023
**Videsh Sewa Kendra and Rudra Eco**

I worked as a Graphic Designer for nearly 2 years at Videsh Sewa Kendra and Rudra Eco, creating visually compelling designs and marketing materials that aligned with each company's branding and communication goals.

## PROJECTS

**Fake Video Detection (Github Link)**     Sep 2024-Present

- Developed the front-end interface from scratch, ensuring a responsive, intuitive, and user-friendly design.
- Collaborating with the team to build the backend architecture, integrating cutting-edge computer vision techniques and neural networks.
- The project focuses on detecting and classifying manipulated media (deepfakes) with high accuracy to strengthen digital security and counter misinformation.
- Log in Details are email: anubhab370@gmail.com and pass is Ani@123

**My Portfolio**     Jan 2024-Mar 2024

- I created my portfolio project from scratch, using an internet design as inspiration but implementing it entirely on my own. The project highlights my skills in graphic design and front-end development, merging creativity with technical expertise to build a functional, visually appealing portfolio.
